2. A point is not scored against a player for an accidental double hit. An accidental double hit, such as the ball touching the racket and the racket hand, can be ignored

Playing against Wheelchair Players

It is quite a while now since Wheelchair players competed in the L&DTTL, and many players may not be aware that there are additional Rules when competing against wheelchair players

Adaptions and Modifications

In disabled table tennis the rules are the same as for the non disabled game with the following exceptions:

- in doubles play wheelchair users may hit the ball consecutively. *(if only one player is in a wheelchair, hitting is alternate as in normal play, but L&DTTL match Reg10a does allow for an additional player to take part in a doubles match, but must be notified to the opposing team at the start of the match)*
- when serving to a player in a wheelchair the service must, if it were to continue on its path, cross the end line at the receiver's end of the table. *(you cannot serve off the side of the table, or serve short just over the net, once a good service has been completed, play is normal)*
- a disabled player may place a hand on the surface of the table during a rally after playing a shot in order to recover their position.
